html / markup

```
<head>
  <!--meta-->
  <!--favicons-->
  <!--stylesheets-->
  <!--scripts-->
```

```
</head>
```

DOM-influencing scripts:

```
<body>
  ...
  <script>
    ...
  </script>
</body>
```

Global styles:

```
<head>
  ...
  <style>
    ...
  </style>
</head>
```

Element attributes

```
inside "double quotes"
class="hidden"
class='hidden'
```

JavaScript attributes

```
inside 'single quotes'
onClick='launch()'
onClick="launch()"
```

Indent with tabs / 4 spaces

Left-align all `<pre>`s

```
<pre>s must have child <code>
  <div>
    <pre>
      <code></code>
    </pre>
  </div>
```

Comment block start / ends

```
<!--f1-->...<!--f1 END-->
```

```
<span></span>
```

****text only****

```
<div></div>
```

****blocks only****

Inline styles

`/404.html`

css / sass / less

Use pyramid bracket schemes:

```
body {  
  margin: 0
```

Leave last line naked:

```
html {  
  padding: 0;  
  margin: 0
```

Break between blocks:

```
}  
  
body {
```

Acceptable selectors:

```
tag  
.class  
:pseudo-selector  
  
#id  
[attribute]
```

Global frameworks

```
`molekule.css`/*only*/
```

Colors

```
regular  
  #HEX  
with alpha  
  rgba()
```

Units

```
width >= 800px  
  px, em, %  
width < 800px  
  vw, vh, %
```

Displays

```
block, inline-block
```

Positions

```
relative  
fixed  
absolute
```

Logos & backgrounds

```
.span {  
  background: ...
```

!important

```
display only
```

Cross-browser support

```
-webkit-property  
-ms-property  
-o-property
```

Pseudo-selectors (only)

```
:before  
:after  
:hover  
:active  
:focus  
:first-of-type  
:last-of-type  
:first-child  
:last-child
```
